1. Décret des 13 et 19 janvier 1791 (Le Chapelier)

- «la plus **sacrée**, la plus **inattaquable** et, si je puis parler ainsi, la plus **personnelle** de toutes les propriétés est l'ouvrage, fruit de la pensée d'un écrivain»

1. Décret des 13 et 19 janvier 1791 (Le Chapelier)

- «cependant **c'est une propriété d'un genre tout à fait différent des autres propriétés.** Quand un auteur a livré son ouvrage au public, quand cet ouvrage est entre les mains de tout le monde, que tous les hommes instruits le connaissent, qu'ils en ont confié à leur mémoire les traits les plus heureux, il semble que, dès ce moment, **l'écrivain ait associé le public à la propriété, ou plutôt la lui ait transmise tout entière.**

1. Décret des 13 et 19 janvier 1791 (Le Chapelier)

- «Cependant, comme il est extrêmement juste que les hommes qui cultivent le domaine de la pensée tirent quelque fruit de leur travail, il faut que pendant leur vie, et quelques années après leur mort, personne ne puisse, sans leur consentement, disposer du produit de leur génie. 1. Fichte (1790)

- «Dunque quanto si offre in primo luogo sicuramente in vendita con la pubblicazione di un libro è la ***carta stampata***, per tutti coloro che hanno i soldi per pagarlo o un amico per farselo prestare; e il suo ***contenuto***, per tutti coloro che hanno abbastanza cervello e diligenza per impadronirsene».

1. Fichte (1790)

- «**La prima, con la vendita, cessa immediatamente di essere una proprietà dello scrittore (che qui possiamo considerare pur sempre come venditore) e diviene proprietà esclusiva del compratore, perché non può avere più signori; ma il secondo, in virtù della sua natura spirituale, può essere comune a molti, così che ciascuno lo possiede interamente, e con la pubblicazione di un libro cessa tuttavia di essere proprietà esclusiva del primo signore** (ammesso che lo sia stato prima, come non è il caso per qualche libro di quest'anno), ma **rimane sua proprietà in comune con molti**».

Free Culture

about the book table of contents links & references

The image shows the front cover of the book "FREE CULTURE" by Lawrence Lessig. The cover is black with white text. At the top, it says "FREE CULTURE" in large red letters. Below that, in smaller white letters, is the subtitle "HOW BIG MEDIA USES TECHNOLOGY AND THE LAW TO LOCK DOWN CULTURE AND CONTROL CREATIVITY". At the bottom, it says "LAWRENCE LESSIG".

About the Book

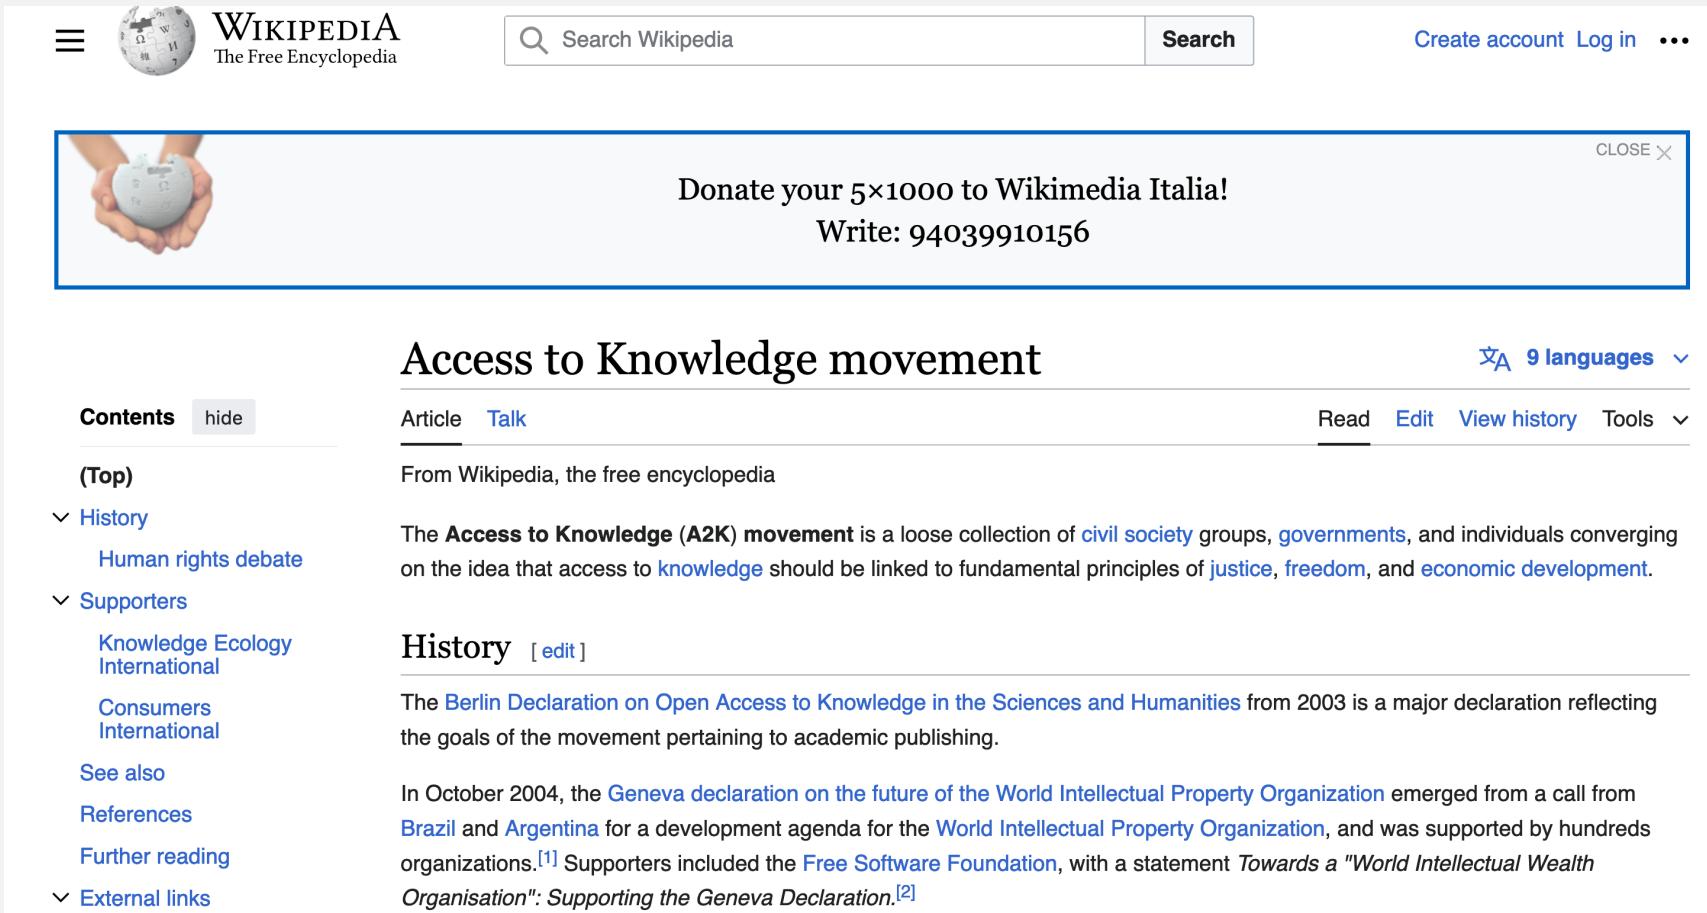

Lawrence Lessig could be called a cultural environmentalist. One of America's most original and influential public intellectuals, his focus is the social dimension of creativity: how creative work builds on the past and how society encourages or inhibits that building with laws and technologies. In his two previous books, **CODE** and **THE FUTURE OF IDEAS**, Lessig concentrated on the destruction of much of the original promise of the Internet. Now, in **FREE CULTURE**, he widens his focus to consider the diminishment of the larger public domain of ideas. In this powerful wake-up call he shows how short-sighted interests blind to the long-term damage they're inflicting are poisoning the ecosystem that fosters innovation.

All creative works—books, movies, records, software, and so on—are a compromise between what can be imagined and what is possible—technologically and legally. For more than two hundred years, laws in America have sought a balance between rewarding creativity and allowing the borrowing from which new creativity springs. The original term of copyright set by the First Congress in 1790 was 14 years, renewable once. Now it is closer to two hundred. Thomas Jefferson considered protecting the public against overly long monopolies on creative works an essential government role. What did he know that we've forgotten?

Lawrence Lessig shows us that while new technologies always lead to new laws, never before have the big cultural monopolists used the fear created by new technologies, specifically the Internet, to shrink the public domain of ideas, even as the same

Le quattro libertà essenziali

Un programma è software libero se gli utenti del programma godono delle quattro libertà fondamentali: [1]

- Libertà di eseguire il programma come si desidera, per qualsiasi scopo (libertà 0).
- Libertà di studiare come funziona il programma e di modificarlo in modo da adattarlo alle proprie necessità (libertà 1). L'accesso al codice sorgente ne è un prerequisito.
- Libertà di ridistribuire copie in modo da aiutare gli altri (libertà 2).
- Libertà di migliorare il programma e distribuirne pubblicamente i miglioramenti da voi apportati (e le vostre versioni modificate in genere), in modo tale che tutta la comunità ne traggia beneficio (libertà 3). L'accesso al codice sorgente ne è un prerequisito.

Berlin Declaration on Open Access to Knowledge in the Sciences and Humanities

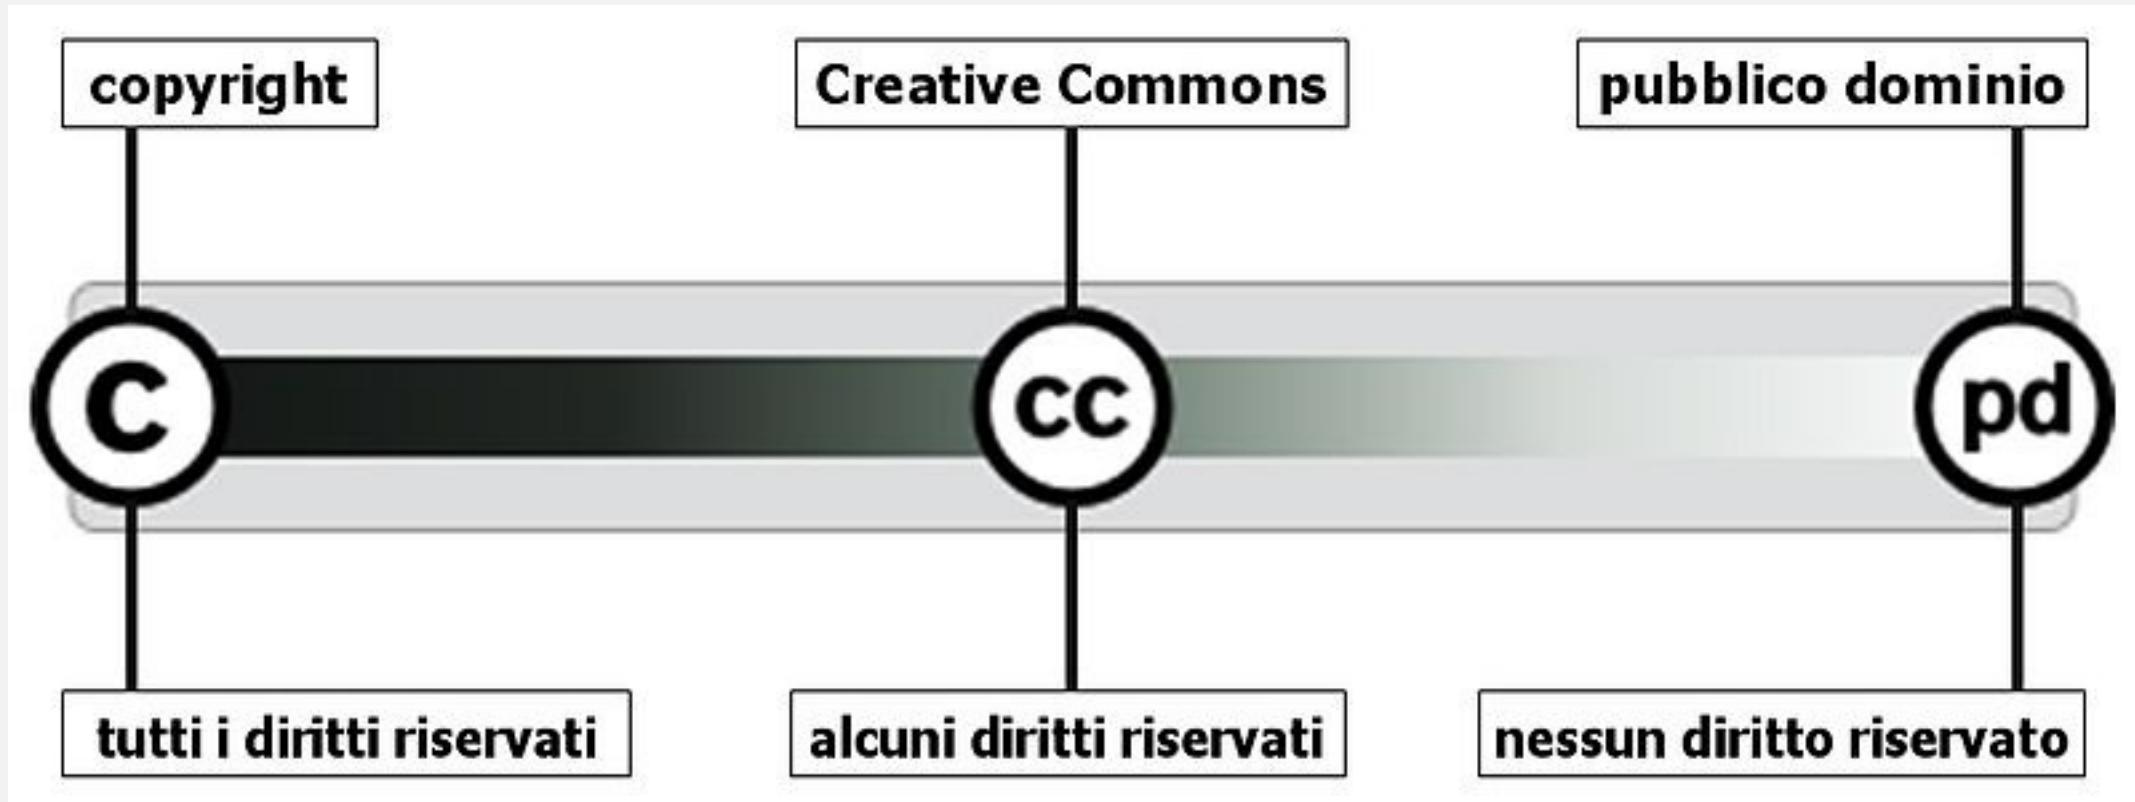

The Internet has fundamentally changed the practical and economic realities of distributing scientific knowledge and cultural heritage. For the first time ever, the Internet now offers the chance to constitute a global and interactive representation of human knowledge, including cultural heritage and the guarantee of worldwide access.

The Berlin Declaration on Open Access to Knowledge in the Sciences and Humanities was published on 22 October 2003 in English. It is one of the milestones of the Open Access movement. The wording of the English version shall prevail.

On the right side of the main content area, there is a vertical column of social media sharing icons: Facebook, LinkedIn, Reddit, Twitter, X, and Email. There is also a mobile device icon at the bottom of the column.
